

PATAGONIA JET

The ultimate experience...

In the most beautiful and remote corners of Chilean Patagonia, and below its highest peak, Mount San Valentin (4057m), **Patagonia Jet** gives you the opportunity to visit as many glaciers as you want, and navigate any river. Using the latest marine technology, our up to 12 passengers **Jet boats** are able to run between 30km/h and 70km/h in only 20cm deep waters up the wild Patagonian rivers to reach the glaciers coming from the Northern ice-field.

We offer **regular daily departures** from Puerto Guadal (Lake General Carrera) to several glaciers like Leones, Soler and Nef as well as special services and logistic support for all kind of expeditions to the Northern ice-field.

The configuration of our jet boats is totally flexible and adaptable to different requirements. In only a few minutes we can transform the 12 person capacity boat into a cargo boat to transport equipment for recreational, scientific, humanitarian and social purposes, or for rescue and emergency operations. Besides, the boat is prepared for remote area operation and is equipped with solar panel, winch, 2 batteries, tents, mattresses, food, waders, rescue kayak, VHF radio, sat phone, rescue cables, emergency lights, etc...

The boat used by Patagonia Jet is fast, and environmentally friendly, as there are no moving parts in the water. This technology allows **Patagonia Jet** to transport you quickly and easily almost everywhere and make you live the ultimate experience.

SERVICES & EXCURSIONS

1- PUERTO GUADAL, MARBLE CAVE & 3 ISLANDS (1hour) (10kms round trip)

Departure from Puerto Guadal. Navigation along the south shore of Lake General Carrera towards the Marble caves. We visit the cave and then continue our journey to the 3 Islands, where we will have panoramic views over the lake and towards Mount San Valentin. Return to Terra Luna. All abilities.

2- CIRCUIT 3 LAKES (Carrera, Bertrand, Plomo, Baker birth) (1/2 day) (80kms round trip)

Departure from Puerto Guadal. Navigation to the outlet of Lake General Carrera, then we continue on Lake Bertrand, surrounded by stunning mountains and hanging glaciers. We travel across the distinctive grey waters of Lake Plomo, and make our way to the village of Puerto Bertrand to see the impressive beginning of the Baker River. After a short visit to the village, we return to Terra Luna. All abilities.

3- PTO SANCHEZ AND CHAPEL OF MARBEL (1/2 day) (50kms round trip)

Departure from Puerto Guadal. Navigation on Lake General Carrera, towards the chapel of Marbel. After visiting, we continue to Pto Sanchez village. We visit the marble caves and rocky formations of the surrounding islands. Back to Pto Guadal. All abilities.

4- LAKE & GLACIER LEONES (1 day) (120 kms round trip)

Departure from Pto Guadal. Navigation on Lake General Carrera to the outlet of the Leones River (20mn). We travel for 40 mins up the Leones River and then walk (30mn up to 1 hour) to reach Lake Leones. Navigation on Lake Leones toward the spectacular terminal face of the Leones Glacier, where we observe the 3 separate branches of the glacier calving into the lake. Lunch in front of the glacier. Ice walk optional. Once back at the boat we will travel back to Pto Guadal. Duration 8 hours. Easy.

5- VALLEY AND GLACIER SOLER (1 day) (120 kms round trip)

Departure from Puerto Guadal. Navigation to the outlet of Lake General Carrera, then on Lake Bertrand, surrounded by stunning mountains and hanging glaciers. We travel across the distinctive grey waters of Lake Plomo, and then make our way along the Soler and Norte Rivers. Walk (1 to 2h) to the view point of Soler glacier which lies at the head of this valley dominated by the impressive Mount Hyades. Walk on the glacier. Walk, navigation and transfer back to Pto Guadal. Duration 10 hours. Moderate.

6- THE GLACIAR ADVENTURE (Glacier Leones + Glacier Fiero) (2 days) (120 kms round trip)

Departure from Pto Guadal. Navigation on Lake General Carrera to the outlet of the Leones River (20mn). We travel for 40 mins up the Leones River and then walk (30mn to 1 hour) to reach Lake Leones. Navigation on Lake Leones toward the spectacular terminal face of the Leones Glacier, where we observe the 3 separate branches of the glacier calving into the lake. Lunch in front of the glacier. Walk on the glacier. Once back at the boat we set our camp on lake Leones. Overnight facing the glacier.

The next day, trekking (1h30 to 2h) to Lake Fiero and navigation to Glacier Fiero. Back to the camp and then to Pto Jet from where will jetboat back to Puerto Guadal Medium effort.

Note: When excursions are done exclusively in lakes, jets can be replaced by Alurib boats.
